

WHAT DIFFERENTIATES GIROVEND?

As the market leader in cashless payment solutions, GiroVend has over 20 years experience across a diverse range of markets. Our flexible product range enables us to adopt a modular approach to offer a complete end to end solution in line with clients business and budget objectives.

By understanding the larger market influences together with the needs and wants of individual catering facilities, we offer a truly comprehensive cashless payment solution. The GiroVend system provides a wide range of benefits to you, your staff and your organisation. Increasing optional staff benefits, improving welfare and introducing cost efficiencies are all ways in which your organisation could benefit from choosing a GiroVend cashless payment solution.

GiroVend understand the individual needs and wants of different catering operations and our tailored solutions offer a flexible approach to cashless payments.
